Now, it has just been discovered that one of the drains in the vicinity of the Peak Hotel has been connected with the district distributer of the gas main to the Peak, and, as alleged, been dragging all the morning. The heavy has been duly passed by the proper officer. The residents in the higher regions are naturally anxious as to the result of the THE Benlarig, which left Kobe on the 17th mixture of the sewage and gas, which is rather a novel departure. The accused not being present when the case was called, his Worship ordered her bail to be estreated, but as she subsequently appeared, the order was rescinded. Major-General Gordon, Acting Captain Superintendent of Police, applied for a further remand. He stated that since the case was last before his Worship he had received telegraphic information that evidence was coming on by the s.s. Guthrie, which vessel was expected here about the 17th just. The remand was granted, bail being allowed as before.

> THE uncertainty of information from Chinese sources makes it doubtful whether the rumour of a rising in the Sun-ning district is entitled to credence after all. Another rumour has it that the disturbance is at Shek-mun, in the Namhoi district. According to this rumour the rising is not among Hakkan; it is said to consist in a vigorous resistance on the part of the ment of a new lekin station there for the collection of duties. The resistance at first took the form of angry protest, according to this account, and then came a collision between the populace and about fifty suldiers who were stationed there. The soldiers were reinforced from Canton with steam-launches chartered from Hongkong are said to be engaged as patrol boats on the river-presumably until the people get used to the new lekin station.

FOURTEEN members of the Stonecutters' Guild, who were charged with intimidating workmen during the recent strike, were brought before Mr Wodehouse to-day on terday, has now ceased, the men having repliment of deserting it before the comple- sumed work on the old terms, and Mr tion of their five years' period of service. Stokes stated to-day that he had been instructed to withdraw from the prosecution. Inspector Swanston, at whose instance whom was at the Central Station and the the men were charged, said the strike having now come to an end, intimidation had ceased. The defendants, none of whom made any statement, were let off with very light penalties. Those who appeared to have taken the most active part in the work of intimidation were find \$10 each, while the others were bound over on their own recognisances to be of good behaviour for six months. Two members of the guild who were in Court while evidence was being taken, and who used threatening language to one of the witnesses when he left the box. were fined \$10 each, with the alternative of 20 days hard labour.

THE MAYBRICK TRIAL

London, Aug 5 .- At the trial to-day of Mrs Maybrick, charged with the murder of her husband, Mrs Maybrick herself was placed on the witness stand. She admitted she had bought fly paper previously mentioned in the trial, but said she procured it for the purpose of making a wash for the face by soaking it in Eider Flower water, according to a receipt given her by a Germ in friend. She had had a prescription of the sort given her power and acting as a tonic to the digestion by Dr Greaves, of Brooklyn, but had lost it on the night of May 9th. Her husband sion of Pure Cod Liver Oil with Hypo implored her to give him a powder, declaring it would not hurt him taken in effect is wonderful. Thousands who have food. Hhe Scott's Emulsion is perfectly palatable placed the powder in a tin of mest juice and is easily digested even by those who and returning to the sick chamber with it cannot tolerate plain Cod Liver Oil. Any found her husband saleen. She left the Chemist can supply it - Watson & Co. tin with its contents on the washstand (Limited), agents in Hongkong and China, where Michael Maybrick secured it. It

had not been touched and she was unaware until her husband died that night that it antained arsenio. This remarkable evidonce was listened to with breathless attention by the entire court, but interest was aroused to the highest pitch of sousation when the brisoner alluded to her relations with Brierly. She swore she had confessed the whole intrinus to her husband, had been pardoned by him and both

were fully reconciled before he died. Liverpool, August 5 .- In the Maybrick trial this morning Prof. McNamara, ex-President of the Irish College of Surgeons. testified that Maybrick's death was due to wastro interitie and not to arsenic. Prof. Paul Toxicological Examiner of the Victoria University, deposed that it would take months to eliminate arsenic from the system if it were taken more than twice. Maybrick's symptoms, he said, accorded with those of gastro interitis. A chemist testified hat ladies often purchased fly paper for use as a cosmetic, and a hair dresser testified to frequent use of arsenic for the complexion. Liverpool.
